

# Time

Time always flies  
Sometimes we understand  
Sometimes we don't  
I have a few watches  
Pink, blue, gold, black. . . .  
I used them as  
Pretty jewellery  
Not for the time management  
Some like a big watch  
on their hand  
and notice every minute  
Some of my watches stopped  
working long time ago  
I still wear them as jewellery  
If people ask what time is it  
I just take out my  
cellphone and tell time
