

Fifty / sixty years back, a young poet wrote in one of his poetries "....এসেছে নতুন শিশু তাকে ছেড়ে দিতে হবে স্থান/ চলে যাবো যতক্ষণ দেহে আছে প্রাণ দুহাতে সরাবো জঞ্জাল/এ পৃথিবীকে এ শিশুর বাসযোগ্য করে যাব/ নবজাতকের কাছে এ আমার দৃঢ় অঙ্গীকার"। We could not do it even of our more than 70 years of existence. So apparently my next birth or next-next birth will face same what we are facing now. শাস্ত্রে বলে আত্মার মুক্তি হর চুরাশি লক্ষ বার জন্মাবার পর। এখন কত লক্ষে আছি জানি না। তবে আমার পুনর্জন্ম মনে হয় পৃথিবী ধ্বংস অব্দি টানবে।

Anyway after fifty years what will happen?

We may dream of- one world, boundary-less countries, no physical wall/fence, universal brother/sisterhood, passportless free movement from one country to other, criminal/ invaderless society, no war, no religion/ism clash ,equi-distribution of food, no hunger. etc etc.

But it will never happen, world will never be রামরাজ্য। So what are the possibilities that my rebirth soul will see & face:

- 1) fighting on religion supremacy and finally realising fruits of co-existence peacefully.
 - 2) Socialism will spread in its new form
 - 3) Technological development will be in its peak
 - 4) Regular communication & transportation between moon & earth to bring minerals & gas (particularly helium) from moon to earth. May be some temporary settlement in moon
 - 4) Mars mission will be in advance stage & settlement in advance stage.
 - 5) Sea- change in power sector , possibly helium based technology will be established, wire-less bulk power transmission as dreamt & experimented by Tesla
 - 6) Technology based office management WFH culture (possibility of increase of population!!)
 - 7) transportation sector will undergo tremendous change, no use of gasoline etc, may be batteries of superior technology or else
 - 8) remote controlled will be part of life
- And many more.....

I am late to forward it due to my eye surgery. Now I am ok. I have yet to read your predictions. I shall see those in afternoon.
